Github: github.com/rahulsinghkushwaha232 Mobile: +91-7881188644

SKILLS

Languages: Java, JavaScript, C++, Python
Concepts: DBMS, DSA, SQL
Tools/Platforms: AWS CLI, Docker, Git and Github, Cloud Formation
Soft Skills: Problem-Solving, Critical Thinking, Team Collaboration, Adaptability, Quick Learner

PROJECTS

Serverless Event-Driven Processing Pipeline | GITHUB Jul'26

- Designed and deployed an automated, event-driven cloud pipeline on AWS to process incoming portal files in real-time with zero server management.
- Configured Amazon S3 event triggers to invoke Python-based AWS Lambda functions, automatically extracting file metadata upon upload.
- Optimized pipeline architecture using a 100% serverless pay-per-use model, achieving zero idle infrastructure costs and high fault tolerance.
- Tech: **AWS (S3, Lambda, DynamoDB, SNS), Python, HTML/CSS, Git, Github**

Employee Management System | GITHUB Apr'26

- Developed a full-stack HR management system to add, update, delete, and view employee records and track payroll data from a centralized dashboard.
- Built REST APIs using Spring Boot, Spring Data JPA, and MySQL with a layered architecture.
- Improved data accuracy, security and administrative efficiency through automation and centralized management.
- Tech: **Java, SpringBoot, Spring Data JPA, MySQL, Next.js, React, Tailwind CSS**

Ticket Booking Website | GITHUB Feb'26

- Developed a responsive ticket booking plateform with event browsing and seat reservation.
- Implemented VIP seating tiers and demand-based surge pricing algorithms.
- Integrated search functionality and scrollable event grid layout.
- Tech: **React.js, Javascript, HTML5, CSS, Vite**

TRAINING

Data Structures & Algorithms Using java & C++ - W3grads | Link Jun'25 – Jul'25

- Strengthened problem-solving skills by writing efficient, optimized code using core DSA concepts.
- Executed custom data structures including stacks, Queues, and Tress to solve complex memory allocation problems.
- Refined computational performance by implementing advanced sorting algorithms(Quicksort, Merge Sort) and reducing time complexity from $O(n^2)$ to $O(n \log n)$ through rigorous Big-O analysis.

CERTIFICATES

- Database Management System - Oracle| **Link** May'26
- Introduction to Internet of Things - NPTEL | **Link** Oct'25
- Introduction to programming in Java - iamneo | **Link** May'25

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Solved around 200 problems on Geeks for Geeks and LeetCode 2026.
- Achieved 2-star rank in C++ Programming in HackerRank 2025.
- Participated in a 24-Hour Code-A-Haunt Hackathon – 2024.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA**: *7.5* *Aug'23 - Aug'27*

MJRP Public School Ghazipur, UP
Intermediate Apr'19 – Mar'21
PCM; Percentage: 71%

Shams National School Ghazipur, UP
Matriculation Apr'17 – Mar'19
Percentage: 73%
